

Technicians
We make the
difference

This is the 'print-your-own' version of the 100 technician cards.

To use them in the classroom, you will need to
print them and cut each sheet into four cards.

Each card has a QR code which will take you to a
page on our website where you can find out more
about the role, hear from real technicians and
watch videos of them talking about their role.

You will also see a School Technician card, for your
School Technician to add their name and photo to!

Please see our lesson plans and resources for
ideas on how to use these in the classroom
